2024 FORECAST

US Army Corps
of Engineers®
South Atlantic Division

COMMANDER COMMENTS

Greetings and thank you for your interest in doing business with the Corps of Engineers' South Atlantic Division. I am more than happy to share with you the opportunities within our World Class Organization.

My Division, the South Atlantic Division, is comprised of approximately 3,500 employees in the HQ and its five districts. We are one of eight regional offices of the Corps overseeing military and water resources design, construction, and operation in the eight states in the Southeast, the Caribbean, and Central and South America. The HQ is located in Atlanta, GA. The division has five districts located in Wilmington, NC; Charleston, SC; Savannah, GA; Jacksonville, FL; and Mobile, AL.

The South Atlantic Division designs and builds major military facilities for the Army and Air Force in the Southeast. Serving 11 major Army posts and 13 Air Force bases. The division builds barracks, hospitals, office buildings, commissaries, and other facilities to meet the needs of the American military. Within the division boundaries, 32 percent of the stateside Army and 18 percent of the Air Force find their home, and four major commands have their headquarters. Thirty-three multiple purpose projects in the Southeast provide citizens with flood control, hydroelectric power, water supply, recreation, navigation, and wildlife enhancement. We operate and maintain more than 6,000 miles of federal navigable channel and 29 major harbors in the region. The division also has a growing environmental restoration workload, including the largest single environmental restoration project in the world, the Everglades Restoration in South Florida.

We have many large projects underway in the region including the Savannah Harbor Expansion Project, Charleston Harbor Post 45 Deepening, and Jacksonville Harbor Deepening which are all massive projects addressing the economic vitality of our nation. We are leading the largest eco-system restoration project in the world, the Comprehensive Everglades Restoration Program. Herbert Hoover Dike rehabilitation, the Corps largest dam safety program, is well underway with almost \$1 billion spent. The Tyndall Air Force Rebuild, the Army Cyber Center of Excellence at Ft. Gordon and the Department of Veterans Affairs Bedtower in Tampa, FL are just a few examples of important projects that we are constructing for our nation. Each of these projects brings its own unique challenges and complexities and we always arise to the occasion.

We have dedicated Contracting and Small Business Professionals who are passionate about building a competent cadre of business partners. Our ultimate goal is to emerge with a WORLD-CLASS delivery mindset A culture of excellence and consistent behaviors that achieve exceptional results in ways that maintain trust.

PARTNERING WITH INDUSTRY is an enduring commitment towards achieving shared objectives by jointly managing performance, risk, and relationships in a manner that builds and sustains mutual trust and transparency. We strive to do that each and every day we are on a mission. Our partnerships are vitally important to getting projects done on schedule and within budget. I appreciate your interest and the work you've done in the past that has helped the southeast become a WORLD-CLASS DIVISION in a WORLD-CLASS organization.

Building Strong, Essayons!
